Kim
It's been fun all these years that we've known each other, it's been an experience that can't be described (I mean for real) But I wouldn't exchange these times for anything in the world. Keep the type of personality that you have; Remember, Try and you will succeed, smile and things will seem easier, Laugh and your enemies will become friends and most of all Love and you will get love in return. I wish you all the luck that anyone can have and I know that you will succeed, because at this point you are a success now. Good Luck and remember me.

JEWELRY'S FINEST CRAFTSMEN

The annual staff would like to congratulate the graduating class of 78. They have been through a lot of hard times and a lot of fun times which will all be remembered. This annual will help them to remember some of the faces of their friends. Being in clubs and activities together has really helped them to grow up. May the friendship that they obtained here last for many years to come. Four years ago when we first came to K.H.S. wandering around the halls trying to find the right classroom we thought that the day of graduation would never come. Yet now it's here! We're graduating! We soon shall be leaving these halls of K.H.S. with fond memories of the past. We the seniors of 1978 would like to bid a farewell to all our teachers and underclassmen, may you enjoy your years at K.H.S as much as we did.

Yours anonymously,

Football in 1977 at Kendrick will be well remembered by the students and faculty for the fine football achievements and could have well been brought out by the directing and leadership that Coach Pate and the rest of the coaching staff revealed. There were also 19 returning seniors and many other players who had experienced the thrilling victory and had learned how to achieve it from last year's performances. We, the students and faculty, are very, very proud to be able to say, "We are the Champions." Thank you to the football team for giving us a tremendous year to remember.

A cheerleader is more than just a person who stands in front of a crowd and brings out the spirit and support of the people. In addition to this, a cheerleader spends many hours of her free time perfecting her routines, painting signs, and helping to decorate the stadium before a football game. Although a cheerleader's responsibilities sometimes become burdensome, she always manages to come through with a bright, friendly smile and looking forward to the next game. Needless to say our cheerleaders put in a lot of time and hard work and we want them to know that we appreciate their tremendous effort at hosting school spirit.

Homecoming

Homecoming and all its activities are a lot of fun when you participate in some of them. Homecoming week at Kendrick is one of the school's most colorful time of the year. Things like the Door decorating contest, the Chain Link game (which the seniors won), The Spirit Parade, and a Bonfire, and many more things were planned for the students and faculty. The night for the crowning came with the optimism of a sure win against the Baker Lions, and not at any time had their thoughts diminished.

Congratulations to Sandy Salyer for being Kendricks 1977 Homecoming Queen.

Girls Basketball

This year's girls' basketball team had their ups and downs throughout the season, giving spectators a lot of worthwhile and exciting action to follow. Also, the team was coached by a man for the first time. Coach Cleophus Hope was always ready and willing to give invaluable advice that in turn improved the girls' game both physically and mentally. We, the student body, really appreciate the 1978 girls team's superior effort for always putting faith in their best.

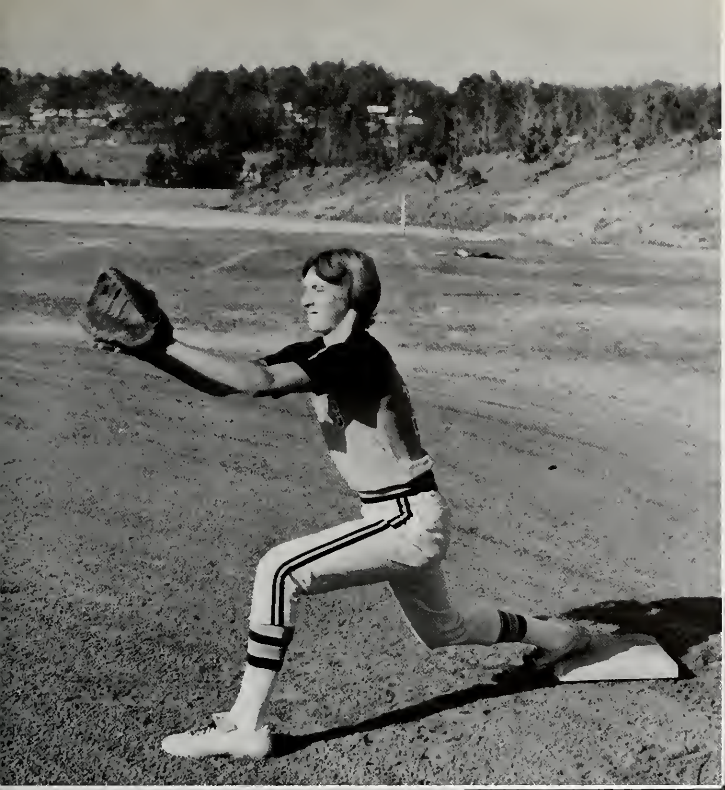
Batter Up

Baseball season comes right at the time everything starts to get warmer and the players soon forget the cold afterschool practices that they had to endure. The only thing on the players mind is what type of games may lie ahead and what they can do to make it a winning season like last year's team did.

This year the team has four senior players who should each have tasted the power of a winning team, while being there to win the Region Championship. We start the season excited about how it may turn out, so Batter Up and lets Play Ball!

During practice or during a game your best performances are the only ones that can help a team into being the best within its region.



Bending, Stretching, hitting, and jumping are all part of the physical practices that can make a winning team. These pictures show how serious it takes a person to become the best.
